Continuation of Modular Classroom Installation

Dear neighbours,

As you know, the *Commission scolaire de Montréal (CSDM)* has installed seven modular classrooms as well as washroom facilities on the *Simonne-Monet* school's grounds to accommodate the increase in the district's student population.

In order to complete installation of these temporary premises, we shall carry out evening and weekend work for at least two weeks from back to school day (August 27) on. This decision was made to offer a safe environment conducive to sound learning for both our students and personnel. Please note that the work to be conducted is mainly finishing work, which limits any inconvenience caused by both noise and dust.

We are increasing our efforts to complete the electrical hook-up procedure as quickly as possible, but there is a likelihood that by then, we will use generators, known for their low noise levels.

All measures shall be taken so that actions are carried out safely and in compliance with standards set by the *CSDM* and the various labour and construction governing bodies in collaboration with the *Ville de Montréal* and our borough.

For further information on the modular classrooms, please visit the relevant Web site page at address csdm.ca/modulaires. In case of any questions, please feel free to contact the school or your school board trustee Khokon Maniruzzaman at the following address: **maniruzzamank@csdm.qc.ca**.

We thank you for your collaboration. Please accept our best regards.

Caroline Lefebvre
Principal
